

# CLUB HANDICAPS

All members will have a **CLUB HANDICAP** which will be based **only** on play in the association outings. Your **CLUB HANDICAP** will be determined from your play in up to 20 association outings over the last few years. **CLUB HANDICAP** revisions will be calculated using the same methodology **currently** used by the USGA **(i.e., World Handicap System)**, including the provision that new members will have a handicap after three outings have been played. Handicaps will be revised after each association outing and posted on the web site prior to the next outing.

The **CLUB HANDICAP** will be utilized for both the President's Cup and Brumby Bowl competitions.

For anyone wanting to maintain a new USGA (WHS) handicap and at no cost, there is a web site on the Internet ([www.thegrint.com](http://www.thegrint.com)) which provides the service.
